Interpersonal Skills: Team Work | Hard working | Attentive | Active Listener

PROJECTS ‑

MediMart (MERN-Stack, Team Project)   **Live Link** | **Client Github** | **Server Github**

This is an e-commerce-like site. Users can buy medicine and health instruments. The user can find their medicine by multi-stage filtering. Admin can manage the product and orders.

Features:-

- Users can search, filter, and sort medicines, and also filter by price range.
- The user gets the order confirmation and updates by email.
- Admin manages the products, users, and orders. Admin gets an alert email for low stock products.

Technology: - NEXT JS, TypeScript, Tailwind CSS, Redux, Mongoose, MongoDB, Shurjopay for payment.

Cycle Bazar (MERN-Stack project)   **Live Link** | **Client Github** | **Server Github**

This is also an e-commerce-like website for buying bicycles. Customer and admin both have separate dashboards. Customer can track their order and give reviews on any product.

Features:-

- Customers can buy a cycle by paying with Shurjopay, and can also Cash On Delivery.
- Admin can manage bicycles, offers, and customer orders from the dashboard.
- Customers can give reviews on any products and update their profiles.
